Option to Add Quantitative Critical Thinking (QCT)

The ability to think critically is an important requirement for many jobs and numerical reasoning is **a strong predictor of critical thinking.** The **short form cognitive assessment** takes only 20 minutes instead of hours and delivers job specific scores, reduces legal risk, enables easy and accurate interpretation, and provides an excellent applicant experience with proven strong correlations to job success.

Option to Add Other Assessments

Optionally include any third-party assessment scores to consider in the weighted total score on the Recruitment Dashboard.

Exceptional Candidate Experience and Employer Branding

In appreciation of the applicant's valuable time, Unlimited Monthly Screening offers a **complimentary "Your Greatest Strengths"** report upon completion of the SmartQuestionnaire. This report is **branded with your Company Name** and highlights their behavioral strengths, empowering them to leverage these capabilities to further their career. Even if an applicant does not receive an offer, it provides a reason to advocate to their colleagues and friends about their experience with your Company and is an excellent aid for enhancing their resume.
